PORTFOLIO CONTENTS

- The student's portfolio will contain the following contents:
  - Introduction and resume
  - IEP, IGP and course of study checklist
  - Formal, informal assessments including learning styles, career interests, self-determination, study skills, assistive technology
  - Community-based and school-based work experiences
  - References from teachers and other appropriate professionals
  - Work samples
  - Agency contact logs

PORTFOLIO FACTS

The portfolio will cover all 4 years of high school, beginning with 9th grade for the 2018-2019 academic year.

Development of the portfolio is embedded in the employability coursework so the student will be taught throughout the 9th grade year on how to create their personal portfolio.

Student owned!   The student is responsible for the submissions in their notebook.

Students may have an electronic version as well as a notebook.

Points to Consider

- **Only for applicable students with IEPs**
- **Not a high school diploma**
- **About ½ of districts within the state already award a comparable credential though varied**
- **Standardized, state-recognized way to**
  - **Give students recognition**
  - **Employers documentation of skills**
- **Protect and ensure students are not inappropriately identified for this credential**

Critical for Implementation Success

- **Growth mindset for ALL students**
- **Collaboration and communication**
- **Data-driven decision making**
- **Creativity and patience**

Questions and Answers
