Students are expected to attend live lessons EVERYDAY regardless of if they are face to face or virtual. If your child is unable to attend the live lesson, he/she is responsible for watching the recorded lesson on his/her own.

Students also need to refer to the math and reading rotations schedule located at the top of their "classwork" tab to see what assignments should be completed and when they should be logged in live with me.

Please have students start practicing multiplication facts. Teach them to draw a picture or skip count on their fingers. If they can do this well, then have them start memorizing facts.
